DIETI, University of Naples Federico II, Via Claudio 21, 80125 Naples, Italy

Profile

Cristian Tommasino is an Assistant Professor (RTD-A) at the Department of Electrical Engineering and Information Technology (DIETI), University of Naples Federico II, and a member of the IKNOS Lab. He develops efficient deep-learning methods for computational pathology, from fast nuclei segmentation to cell-graph models for cancer subtyping, and connect them with knowledge graphs and vision-language models for retrieval and decision support.

- **Computational pathology**: whole-slide image analysis, nuclei instance segmentation and classification, stain normalization, histopathology image retrieval
- **Graph learning**: cell-graph construction, graph and hypergraph neural networks for cancer subtyping
- **Generative AI and language models**: vision-language models, retrieval-augmented generation, multi-agent systems
- **Knowledge representation and retrieval**: knowledge graphs, ontologies, multimedia information retrieval

Positions

2024 – present
Assistant Professor (RTD-A), DIETI, University of Naples Federico II
Funded by the PNRR extended partnership RESTART

2023 – 2024
Postdoctoral research fellow, CIRMIS – Interdepartmental Research Centre in Healthcare Management and Innovation, University of Naples Federico II
Management, integration and analysis of multimedia healthcare data with big data and AI techniques

2022 – 2023
Visiting researcher, Computational Pathology Group, Radboud University Medical Center, Nijmegen, the Netherlands
Knowledge distillation for nuclei instance segmentation and classification (Oct 2022 – Mar 2023)

2020
Research fellow, CINI – National Interuniversity Consortium for Informatics
Development, validation and testing of software for ATO over ETCS railway systems

2019 – 2020
Research fellow, project PON OPL-APPS IIoT, DIETI, University of Naples Federico II
Machine-learning-based industrial analytics for digital manufacturing

2018 – 2019
Python/Django developer and functional analyst, Fairvalyou S.r.l.
Financial advisory platform with recommender systems and goal-based investment

Education

2019 – 2023
PhD in Information and Communication Technology for Health, University of Naples Federico II
Thesis: *Distilled Nuclei Segmentation for Graph-Based Whole Slide Images Analysis and Retrieval*

2015 – 2019
MSc in Computer Engineering, 110/110 cum laude, University of Naples Federico II
Thesis: *Multimedia Web Document Retrieval Based on Text and Visual Descriptors*

2011 – 2015
BSc in Computer Engineering, University of Naples Federico II
Thesis on commercial and open-source tools for log collection and analysis

Research output

52 publications (see the list below); 311 citations and h-index 11 (OpenAlex, Nov 2026).

Open-source software

2026 – present **PathJev** – A calibrated, decision-native vision-language model for histopathology, built on MedGemma with a dedicated decision head, so that answers to clinical questions come with reliable confidence.

2026 – present **EarthJev** – The same decision-native approach applied to remote sensing: calibrated, non-generative answers to natural-language questions about 12-band Sentinel-2 satellite images.

2024 **NuLite** – Lightweight and fast model for nuclei instance segmentation and classification, with a FastViT encoder in a U-Net-like architecture.

2023 – 2024 **HoVer-UNet** – HoVerNet distilled into a single U-Net for multi-class nuclei segmentation, about three times faster at inference with comparable accuracy.

Research projects

2024 – present **RESTART – PNRR extended partnership**
Italian national research programme funded by the PNRR (NextGenerationEU), which funds the Assistant Professor (RTD-A) position at DIETI.

2019 – 2020 **PON OPL-APPS IIoT – Open Platform and Applications for manufacturing**
Research fellowship (PON ARS01_00615) on machine-learning-based industrial analytics for digital manufacturing, including deep learning for surface defect detection and health monitoring in Industry 4.0.

2020 **CINI – ATO over ETCS**
Research fellowship at the CINI consortium on the development, validation and testing of software for Automatic Train Operation (ATO) over ETCS, compliant with European railway standards.

Teaching

2025/26 – present **Multimedia Systems (Sistemi Multimediali)**
BSc in Computer Engineering, DIETI, University of Naples Federico II

2024/25 **Machine Learning and Big Data** (9 ECTS)
MSc in Autonomous Vehicle Engineering (MOVE), Department of Industrial Engineering, University of Naples Federico II

2021 – 2023 **Machine Learning for Engineering** (6 ECTS)
MSc in Mechanical Engineering for Design and Production, Department of Industrial Engineering, University of Naples Federico II (adjunct lecturer)

2021 – 2023 **Databases (Basi di Dati) – teaching assistant** (9 ECTS)
DIETI, University of Naples Federico II – course of Prof. A. M. Rinaldi

2020 – 2021 **Introduction to Computer Science (Fondamenti di Informatica) – teaching assistant** (9 ECTS)
DIETI, University of Naples Federico II – course of Prof. A. M. Rinaldi

Supervisor of several MSc theses in Management Engineering and co-supervisor of BSc and MSc theses in Computer Engineering at the University of Naples Federico II.

Service and activities

Conference organisation

2026 Local Sponsors Chair, European Conference on Machine Learning and Principles and Practice of Knowledge Discovery in Databases (ECML PKDD 2026), Naples, Italy

Workshop organisation

2027 — Organiser and primary contact (CVPath track), Vision for Biomedical Discovery – CVPath + Vision4Neuro, full-day workshop at WACV 2027, Lake Buena Vista, FL, USA (1st edition of CVPath – Computer Vision for Computational and Digital Pathology, hosting the OWL challenge on interpretable AI for prostate cancer recurrence)

2026 — Organiser, 1st Workshop on REpresentation learning from Heterogeneous and Multi-source biomEDical data (REHMED 2026), held with ECML PKDD 2026, Naples, Italy

2025 — Workshop Chair and Publication Chair, 1st Workshop on Artificial Intelligence for Biomedical Data (AIBio 2025), held with ECAI 2025, Bologna, Italy

Editorial activity

2026 — Co-editor (with C. Russo and M. Bernardini), *Artificial Intelligence for Biomedical Data – AIBio 2025 Proceedings*, Springer CCIS vol. 2696 (doi:10.1007/978-3-032-17216-7)

Programme committees

2024 — International Conference on Model and Data Engineering (MEDI 2024), Naples, Italy

2024 — International Conference on Management of Digital EcoSystems (MEDES 2024)

2023 — IEEE International Conference on Artificial Intelligence and Knowledge Engineering (AIKE 2023)

2022 — IEEE International Conference on Artificial Intelligence and Knowledge Engineering (AIKE 2022)

Journal reviewing

2025 – 2026 — *Medical Image Analysis* (Elsevier) (4 reviews)

2025 — *International Journal of Human-Computer Studies* (Elsevier) (1 review)

2023 – 2024 — *Soft Computing* (Springer Nature) (2 reviews)

Talks and presentations

2025 — Discussant, session *Telepatologia*, Digital Pathology Summit, Rome, Italy

2024 — Poster, *HoVer-UNet*, IEEE International Symposium on Biomedical Imaging (ISBI 2024)

2023 — Poster, *Cell-Graph Representation in Computational Pathology – A Unified Approach to Nuclei Detection and Feature Extraction*, International Conference on Active and Healthy Living, Naples, Italy

2023 — Invited talk, *Development and Deployment of AI Models for Pathology*, GIPATEC 2023 – Navigating Complex Management of H&N Lesions at the Intersection of Traditional and Advanced Morphology, Naples, Italy

2022 — Paper presentation, *A Novel Approach to Populate Multimedia Knowledge Graph via Deep Learning and Semantic Analysis*, 14th International Conference on Management of Digital EcoSystems (MEDES 2022), Venice, Italy

Memberships and networks

Member of the IKNOS Lab, DIETI, University of Naples Federico II

Collaborator of the PICUS Lab – Pattern analysis and Intelligent Computation for mUltimedia Systems, DIETI, University of Naples Federico II

Languages

Italian (native) · English (B2, CEFR)
